HOW TO USE THIS BOOK

This collection of 100 beautiful crochet designs features patterns inspired by decorative ceramic tiles from around the world. You can mix and match the designs to create your own blankets and throws – or try one of the eight exciting projects, which show you other ways in which the tiles could be assembled. The projects can also be made using any other tiles that are the same shape from the book, so the possibilities are endless.

Each pattern also has a chart, either a stitch chart – which also shows the colour of each stitch – or a colour chart showing colour changes for tiles made in the mosaic, tapestry or intarsia techniques. You can work from the stitch charts instead of the written pattern, but since the colour charts do not show which stitch is being worked you will also need to follow the pattern. Some of the colour charts only show one segment of the design, so will need to be repeated several times around to make the complete tile.

BASIC KIT

All you will need to make these tiles is a crochet hook and some yarn, plus a yarn needle for weaving in ends or invisible joins. Most only need small amounts of each colour, so they are a great stash-buster. The projects specify the yarn amounts needed, and any other supplies required to complete the item.

HOOK

US size E/4 (3.5mm) hook

GAUGE (TENSION)

A single motif measures approx 8¼in (21cm) using a US size E/4 (3.5mm) hook.

SPECIAL ABBREVIATION

mdc, double crochet worked in skipped st three rows below

NOTES

Motif is worked in inset mosaic crochet in Rounds 2 to 23. To keep pattern straight turn work when stated.
Colours are changed every two rounds; to change colour, or join new colour, pull up loop in corner 2ch-sp, leaving prev colour on WS.
You do not increase on every round – every 4th round only has 1 ch in each corner; following WS round skips corner ch-sp.
Place a marker in joining slst at end of all RS rounds.
Rounds 24 and 25 begin with standing sts and end with invisible join. Do not pull too tight as you will work in this st.
In st counts each 2ch-sp counts as one st and each 3ch-sp counts as two sts.

Motif is worked in intarsia crochet in rows.
All rows are worked on RS right to left with no turning.
There is little carrying of yarns with colour changes.
To change colour, leave prev colour behind. When starting new row with prev colour, pick up yarn as you change colour and "crochet in" excess yarn between last st of prev row and new st of new row.
The only times that carrying yarn over occurs is when 2 colours interchange frequently, such as in black and white chequered areas.

Make a loop and pull the yarn through to make the first loop on the hook. *Yarn over and pull up a loop; rep from * to make as many chains as stated.

SLIP STITCH (SLST)

Insert the hook in the stitch, yarn over and pull through both stitch and the loop on the hook.

SINGLE CROCHET (SC)

Insert the hook in the stitch, yarn over and pull through the stitch (2 loops on the hook) (1). Yarn over and pull through both loops on the hook (2).

MAGIC RING

With the yarn tail hanging down, make a loop and hold it between two fingers (3). Insert the hook in the loop and pull the yarn through (4), make a chain to secure, then make stitches into the loop (5). When you have finished pull the tail to tighten the loop. Slip stitch in the first stitch to join.

HALF DOUBLE CROCHET (HDC)

Yarn over and insert the hook in the stitch (6). Yarn over and pull up a loop (3 loops on the hook). Yarn over and pull through all 3 loops (7).

DOUBLE CROCHET (DC)

Yarn over and insert the hook in the stitch (8). Yarn over and pull through the stitch (3 loops on the hook) (9). Yarn over and pull through the first 2 loops on the hook (2 loops left on the hook). Yarn over and pull through the last 2 loops.

TREBLE (TR)

Yarn over twice and insert the hook in the stitch (10). Yarn over and pull through the stitch. Yarn over and pull through the first 2 loops on the hook (3 loops left on the hook) (11). Yarn over and pull through the first 2 loops on the hook (2 loops left on the hook). Yarn over again and pull through the remaining loops.

DOUBLE TREBLE (DTR)

Work as treble crochet, but yarn over 3 times before inserting it in the stitch (12). Yarn over and pull through 2 loops each time, until you have 1 loop left on your hook.

SINGLE CROCHET 2 STITCHES TOGETHER (SC2TOG)

Insert the hook in the first stitch, yarn over and pull a loop through the stitch (2 loops on the hook) (13). Insert the hook in the second stitch, yarn over and pull a loop through the stitch (3 loops on the hook) (14). Yarn over and pull through all 3 loops on the hook.

SINGLE CROCHET 3 STITCHES TOGETHER (SC3TOG)

Follow the instructions for sc2tog until there are 3 loops on the hook (14), insert the hook in the third stitch, yarn over and pull a loop through the stitch (4 loops on the hook). Yarn over and pull through all 4 loops on the hook.

DOUBLE CROCHET 2 STITCHES TOGETHER (DC2TOG)

Yarn over and insert the hook in the first stitch. Yarn over and pull a loop through the stitch (3 loops on the hook) (15). Yarn over and pull through the first 2 loops on the hook (2 loops on the hook) (16). Yarn over and insert the hook in the second stitch). Yarn over and pull through the stitch (4 loops on the hook). Yarn over and pull through the first 2 loops on the hook (3 loops on the hook) (17). Yarn over and pull through all 3 loops on the hook (18).

DOUBLE CROCHET 3 STITCHES TOGETHER (DC3TOG)

Follow the instructions for dc2tog until the final yarn over (17), yarn over and insert the hook in the third stitch, yarn over and pull a loop through the stitch (5 loops on the hook), yarn over and pull through the first 2 loops on the hook (4 loops on the hook), yarn over and pull through all loops on the hook.

DOUBLE CROCHET 4 STITCHES TOGETHER (DC4TOG)

Follow the instructions for dc2tog until the final yarn over (17), *yarn over and insert the hook in the third stitch, yarn over and pull a loop through the stitch (5 loops on the hook), yarn over and pull through the first two loops on the hook (4 loops on hook); rep from * in the fourth stitch (5 loops on hook), yarn over and pull through all loops on the hook.

INVISIBLE JOIN

This gives a smooth even edge. Cut the yarn and pull the yarn tail through the last stitch. Thread the yarn tail onto a yarn needle, insert the needle, from front to back, in the next stitch. Now insert the needle back in the same stitch that the yarn tail is coming out of, but in the back loop only, and pull gently (1). Weave the tail end in the wrong side of the fabric and cut the excess (2).

GAUGE (TENSION)

This is not critical on these blocks, but the patterns do give the ideal size of the tile. If your tiles are working up smaller, try a larger size hook than stated. If larger, try a smaller hook.

FRONT LOOP ONLY (FLO)

The front loop of a stitch is the loop closest to you. If the pattern says to work in FLO work your stitches in just this front loop.

BACK LOOP ONLY (BLO)

The back loop is the loop furthest away from you. If the pattern says to work in BLO work your stitches in just this back loop.

FRONT POST STITCHES (FP)

Work the stated stitch as normal, but insert the hook from front to back to front around the post of the stitch instead of in it. The illustrations show FPsc: insert the hook from front to back to front around the post of the stitch (3). Yarn over and pull up a loop, yarn over and pull through 2 loops on the hook (4).

BACK POST STITCHES (BP)

Work the stated stitch as normal, but insert the hook from back to front to back around the post of the stitch instead of in it. The illustrations show BPsc: insert the hook from back to front to back around the post of the stitch (5). Yarn over and pull up a loop, yarn over and pull through 2 loops on the hook (6).

POPCORN (PC)

A popcorn consists of complete stitches worked in the same stitch – so for a 3dc-PC work 3 dc and for a 4dc-PC work 4 dc – and then joined at the top. The illustrations show a 5dc-PC: work 5dc in the stitch (7), remove the hook from the last stitch and insert it, from front to back, in the top of the first stitch of the popcorn, then insert the hook back in the loop from the last stitch again (8), yarn over, pull through both loops on the hook. Some popcorns finish with a chain to secure.

PICOT

Make 3 chain (or the number stated), insert the hook from right to left under the front loop and bottom vertical bar of the chain (9), yarn over and pull through all loops on the hook (10).

CLUSTER (CL)

A cluster is made by partly working a number of stitches in the same stitch or chain space, or sometimes over a few stitches, leaving the last yarn over of each stitch on the hook. Then yarn over hook and pull through all loops. It's often worked in a similar way to a bobble, but the cluster sits flat. The illustrations show a 3dc-cl: yarn over hook, *insert the hook in the stitch or space indicated (11), yarn over, pull up a loop, yarn over, pull through the first 2 loops on the hook; rep from * twice more (4 loops on the hook), yarn over hook and pull through all loops on the hook (12).

PUFF STITCH

This is a series of half double crochet stitches worked in one stitch, similar to a bobble but softer and less defined. The illustrations show a 3hdc-puff st: yarn over and insert the hook in the stitch, yarn over and pull up a long loop to the height of the current round or row (13), [yarn over, insert hook in the same stitch, yarn over and pull up a long loop] twice more (14), yarn over and pull through all 7 loops on the hook (15), yarn over and pull through to close the puff. For a 4hdc-puff st work the section in square brackets 3 times then pull through 9 loops on the hook.

BOBBLE

A bobble is made by partly working a number of stitches in one stitch, leaving the last yarn over of each stitch on the hook. Then yarn over and pull through all loops to form a well-defined bump on the surface. The illustrations show a 5dc-bobble: *yarn over, insert the hook in the stitch, yarn over and pull up a loop, yarn over and pull through the first 2 loops on the hook (16); rep from * 4 more times in the same stitch (6 loops on the hook) (17). Yarn over and pull through all 6 loops on the hook (18).

V STITCH (V-ST)

Work (1 dc, 2 ch, 1 dc) all into the same stitch. Can also be worked with 3 ch between the two dc.

SPIKE STITCH

Work the stated stitch as normal, but into the next stitch the number of rows or rounds below as given in the pattern, pulling up the loops to the height of the working row or round to complete the stitch.

MOSAIC CROCHET OVERLAY METHOD (FLMDC)

With mosaic crochet there are no colour changes within rows/rounds; colours are changed every two rows/rounds. In this version of the technique, the double crochet stitches are worked in the FLO of the corresponding BLO stitch of the same colour 2 rows or rounds below. First make the initial rounds or rows, working in the BLO where instructed. To make the first FLMdc the 2 turquoise stitches are double crochet worked in the FLO of the stitches directly below in a row that's the same colour (1). In the next row, two red stitches are double crochet worked FLO in the BLO stitches 2 rows below, and so on (2). After a few rows or rounds the pattern will be clearer (3). The chart has an X to show which stitches are worked as a FLMdc.

MOSAIC CROCHET INSET METHOD (MDC)

Again there are no colour changes within rows/rounds; colours are changed every two rows/rounds. First make the initial rounds or rows as instructed, always working in both loops of the stitch as normal. In this version of the technique, stitches are skipped in two rows or rounds and chain is worked over them (4 and 5). The double crochet stitches are then worked in front of the chain spaces and into the skipped stitch in the same colour two rounds or rows below (6). After a few rounds the pattern will become clear (7). The chart has an X to show which stitches are worked as a mdc.

TAPESTRY CROCHET

Tapestry crochet is usually worked following a chart, which gives the colour changes. More than one colour is worked in each row or round, with unused yarns carried along and crocheted over to hide them, so they are ready to use when needed (8). The method of making a colour change is the same in a round or row. Begin the colour change in the prev stitch: in the old colour, make the stitch as usual but, before the final yarn over, bring the old colour to the front (to complete the stitch on the reverse side), then pick up and pull through a loop of the new colour (9). Pass the old colour to the back and continue in the new colour, crocheting over the old colour as you go (10).

INTARSIA CROCHET

Intarsia is similar in appearance to tapestry crochet on the right side, but unused colours are dropped at the back and then picked back up on the return row, creating a definite right and wrong side with short floats of yarn between stitches on the back. Intarsia crochet is also usually worked following a chart, which gives the colour changes. As with most colour changes, the switch to a new colour is made on the final yarn over of the stitch directly before (11 and 12). When a colour change is needed on the wrong side, bring the old colour to the front (13) to keep all the floats and yarn ends on the wrong side.

JOIN-AS-YOU-GO

With this technique tiles are joined as they are made, which saves time at the end. The general technique is shown on a granny square, but can be adjusted for any square. First, complete one tile (Square 1) and have the next tile (Square 2) complete up to the two last sides of the final round. Crochet along the third edge and make the corner cluster, then 1 chain (14). Slip stitch in the corner of Square 1 (15) and complete the corner cluster of Square 2 (16), then *slip stitch in the next space between clusters of Square 1. Make the next cluster in Square 2; then rep from * across the side to the corner of Square 2, make the first cluster here, slip stitch in Square 1 as before and complete the corner of Square 2 (17). Continue joining one square at a time. To begin the next row, join the first square as before along one side. Make the next square with one side completed before joining exactly as before, but along two sides (18). The first square of any row only joins on one side. All following squares join on two sides.

BLOCKING

Pin the tile to size using rust-proof pins and steam lightly with an iron. Do not touch the work with the iron but hover over it giving blasts of steam. Leave to dry completely before removing the pins.

SINGLE CROCHET SEAM

Single crochet can be used to create a decorative, sturdy seam on the right side when pieces are placed wrong sides together. Working with right sides together for seaming will make the stitches less obvious. For a single crochet seam, begin at the right-hand edge and join pairs of stitches together through both loops, working single crochet in the usual way (see Single Crochet).

STANDING STITCH

To make your project look a little neater, a standing stitch is a useful way to start a row or round in double crochet, as it removes the need for a slip stitch and ch 1. If you are working with taller stitches, simply make a standing stitch and then ch 1 or 2 to imitate the height of the surrounding stitches. To make the standing stitch, begin with a slip knot on your hook and insert it into the stitch. Yarn over and draw the yarn through the stitch (2 loops on hook), yarn over and draw the yarn through both loops to complete the stitch.
